MINE OWNERS TO ORGANIZE

At a conference held in Calgary, attended by some thirty representatives of the coal industry, it was recommended that the Dominion Fuel Board be composed of men from the coal mining provinces of the Dominion, who should devote more attention to the development of markets for Canadian coal; that a permanent rate be established to permit Alberta coal going into the Ontario market; that the department of national revenue apply the provisions of the Dumping Act to coal if it is found that the United States operators are dumping anthracite into Ontario; and that a duty of \$1.50 per ton be imposed on coke and semi-coke brought into the east.

The gas question will be dealt with by a committee appointed, the following being members of the committee: W. Stevenson, Hillcrest; G. A. Vissac, Blairmore; Major Pullen, Saunders Creek; S. L. McMullen, Drumheller, and G. L. Brockbank, Calgary, with Dr. Patrick as chairman.

INSTITUTE OF MANUAL TRAINING

An organization meeting of all interested in Manual Training will be held at the Public Library on Tuesday at 7 p.m. The purpose of the meeting is to enroll students and arrange the classes. A fee of \$1.00 is charged for the course.

MASSONIC CONVENTION HERE THIS WEEK

Representatives of Macleod, Pincher Creek, Coleman, Hillcrest and Blairmore Masonic lodges are meeting in Blairmore today, being the annual meeting of District No. 8 of the Grand Registry of Alberta, A.F. & A.M.

Among those present are: Rt. W. Dr. Sneddon, of Edmonton, grand master; John Kemmis, of Calgary, grand secretary; Canon Middleton, of Cardston, past grand master; George Cruickshank, M.L.A., of Hillcrest, past grand master; Robert Patterson, of Macleod, past grand master, and G. M. Blackstock, of Medicine Hat, grand senior warden.

The afternoon session will conclude with a grand banquet.

R. W. H. Pinkney, of Blairmore, is the district deputy.

ARENA COMPANY ANNUAL MEETING

The annual general meeting of the shareholders and directors of the Blairmore Arena Company, Limited, will be held in the B.P.O. Elks' office, at the rear of the Moose Hall, Blairmore, on Tuesday night next at 8 p.m.

A full attendance it is requested, as many matters of interest will be discussed, in addition to consideration of the annual financial statement and auditor's report.

SENATOR FAVORS SIX HOUR DAY

Speaking at Brockville, Ontario, recently, Senator A. C. Hardy, who is identified with the directorates of various important Canadian industrial and financial corporations, expressed the opinion that the general institution of a six-hour working day was the only permanent remedy for unemployment.

"I believe," he said, "that if we can stand behind certain responsible labor leaders and work for a shorter day, the sooner we can cope with the unemployment question. Labor, perhaps, would have to be content with slightly lower wages for the shorter working day and employment would have to be willing to accept smaller profits."

OSCAR BRINDELY LOSES FOOT

The many Pass friends of Mr. Oscar Brindely, former resident of Coleman and Blairmore, but of late residing at Fernie, will be sorry to learn that through some mishap along the railway line between Coal Creek and Fernie he had the misfortune to have a foot severed.

The accident occurred yesterday while returning from a visit to Coal Creek.

GRADUATION OF NURSES IN FINE CEREMONY

Never before in the history of graduating classes of the Kootenay Lake General Hospital did the ceremonies command so much attention as those held on September 19th at the Trinity United church. The church was crowded to the doors by citizens of Nelson, interested in the event that marked the entrance of the nurses into the actual field of their profession.

For the occasion every available portion of the front of the church and choir loft had been decorated with beautiful flowers. At the opening of the exercises over 30 nurses in uniform filed in and took their places in the choir loft. The eight graduates carrying bouquets of pink roses and sweet peas, presented to them by the hospital board, occupied the front seats of the loft. In front, the matron and supervisors, also in uniform, had their seats. They included the matron, Miss C. Treffry, Mrs. J. Leslie, Mrs. Don Ure and Miss J. Wilson.

Following the opening prayer by Rev. T. J. S. Ferguson, of St. Paul's United church, Rev. W. G. Mathewson administered the Nightingale pledge. While the graduating class knelt their right hands extended upwards and repeated the pledge, the audience stood in tribute to the serious import of the ceremony.

Those taking the pledge were: Miss Edith E. Shorthouse, Miss E. Smith, Miss Isobel Rae, Miss Vera E. Lidberg, Miss Amelia E. Houston, Miss V. M. Snow, Miss Mary M. Dods, Miss Gladys Macdonald.

The next order of events was the presentation of diplomas to the graduates by G. F. Motion, chairman of the hospital board.

As each nurse filed down from the loft and received her diploma and badge, she was greeted with a fine ovation from the audience, and as she passed back to her seat was loaded down with bouquets and presents from friends.

When these presentations were concluded and the nurses returned to their places, the whole choir loft was one flaming galaxy of colors from the gorgeous baskets and bouquets of flowers.

Dr. E. L. Reid, in a short address, paid tribute to the struggles that the graduating nurses had gone through in the past few years. Now, however, they were ready to efficiently assist the medical profession.

Hospitals, he pointed out, were the bridges over the chasm of death. The nurse was an integral part of the hospital.

He explained the endeavor being made to make the local hospital a standardized one, and he thought that when this was accomplished everyone, nurses, doctors and community, should rejoice.

In conclusion he heartily congratulated the nurses and medical staff of the hospital and wished the graduating class God speed.

Miss Isobel Rae, one of the graduates referred to above, is the daughter of Mr. and Mrs. Isaac Rae, of Blairmore.

Rev. J. M. Pritchard will be the anniversary preacher at the United church, Sunday, November 26, morning and evening.

COLE'S THEATRE BELLEVUE

Friday and Saturday - Oct. 17 and 18 "Love in the Rough"

with
Dorothy Jordan, Robert Montgomery, Benny Rubin and J. C. Nugent

Immediate Relief for INDIGESTION

WHAT most people call indigestion is usually excess acid in the stomach. Food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude helps. Use what your doctor would advise.

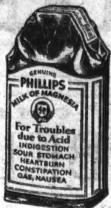

The best help is Phillips' Milk of Magnesia. For the 50 years since its invention, it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume

in acid. The results are immediate with no harmful after-effects.

Once you learn this perfect way you'll never deal in any other manner with the headaches, gas, bloating, nausea, dizziness, indigestion, biliousness, etc., due to an over-acid stomach and bowels.

Be sure to get genuine Phillips'. It is always a liquid; never made in tablet form. Look for the name Phillips on the bottle. All drug stores—50c.

PHILLIPS' MILK OF MAGNESIA

WORLD HAPPENINGS BRIEFLY TOLD

Alex. Chisholm, prospector and veteran of the "trail of '98," is dead at Sulphur, B.C., at the age of 70.

Wireless telegraph service has been established between Buenos Aires and Chilean cities and with Spain.

The \$100,000,000 Canadian government bond issue floated in the New York market October 7, was heavily over-subscribed.

Assembly of the League of Nations stood in silence several moments on the occasion of the first anniversary of the death of Gustav Stresemann, German post-war foreign minister.

The eleventh assembly of the League of Nations adjourned Oct. 4, after wrestling earnestly for three and a half weeks with pressing world problems.

Reports published abroad that trouble had arisen aboard the British battle cruiser "Revenge," anchored in Gofu Juan harbor, Nice, France, were denied by authoritative sources.

A number of delegates attending the Canadian Automobile Association convention at Vancouver endorsed the proposed highway through British Columbia to Alaska, in addresses made at the annual banquet.

The London Times editorially said that Russian dumping of grain on European markets was "clearly due first and foremost to desperate need of the Soviet Government for credits to finance their five-year industrialization plan."

The Department of National Defence announces that Major D. R. Sargent has been promoted to the rank of lieutenant-colonel and to command the 2nd Battalion, the Scottish Regiment. The regimental headquarters are at Nanaimo, B.C.

Athletes recommend Minard's Liniment.

Had Never Seen Ocean

To have lived within 210 miles of the Atlantic Ocean for a lifetime without seeing it is an experience that comes to few in these days of automobiles. Yet fifteen of the seventeen Vermont clergymen who attended the New England rural church workers' conference near Old Orchard, Me., had never seen the sea.

Germany planted 1,800,000,000 trees in 1928.

Flaky Pie Crust

The secret of making good pie crust is "Use Purify Flour—and keep the dough dry." Try this recipe—for 2 shells:

3 cups Purify Flour 1 cup lard
1/2 teaspoon salt 1 cup cold water

METHOD: Mix the flour and salt, cutting in the lard. Sprinkle the flour with the salt, gradually adding exact quantity of water but not too much. If you can, the pie crust will be even better.

Turn out on board very lightly sprinkled with Purify Flour. Roll—don't knead them. Spread balance of shortening over dough, then over three times and roll again to required thickness. Bake in hot oven (400°).

Send 5c for Purify Flour Card.

GRACEFUL AND LOVELY

All Tingey models are created and sketched in Paris and the patterns are made in New York.

A straight hand set in the neckline as shown knots prettily on the shoulder. To match there is a similar bow posed on the hip line. Tucked neatly the neck drapes a triangular section of tissue finishes the V-neck and beneath the belt a similar section repeats the line.

Crepe-de-chine, especially in red, is a lovely medium for this dress. Either bordeaux, scarlet or Chinese red can be chosen. Dark rich greens are also lovely and modish for full wear. Plain or patterned marocain, satin, triple georgette, etc., are other suitable silks.

This pattern may be obtained in sizes 14 to 20 and 24 to 40. It is ready for immediate delivery. It is hand cut.

Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address. Indicate the pattern and the size you want.

Immigration Returns

During the first four months of the current fiscal year, 58,273 immigrants were admitted to Canada as compared with 94,214 for the similar period of 1928. Those from the British Isles numbered 19,917 and from the United States, 12,075, while 13,109 came from Northern Europe.

IS ELECTED PRESIDENT

Walter Ashfield, Editor Of The Grenfell Sun

Weekly Newspaper Publishers Meet

Fourteenth Annual Convention Of Canadian Weekly Newspaper Association, Saskatchewan Division

At their fourteenth annual convention held at the Saskatchewan Hotel, Regina, the Canadian Weekly Newspaper Association (Sask. Division), elected Walter Ashfield, Editor of the Grenfell Sun, as president for the ensuing term.

H. G. Sheldrake of North Battleford, the retiring president, was chosen as honorary president; A. Kling, Rouleau, vice-president; S. J. Donnan, Alameda, secretary-treasurer; while the following were elected to the executive: S. N. Wynn, Yorkton; E. P. Hodgins, Vanguard; J. J. Zurbick, Kerrsboro; J. Scott, Whitewood; H. Derryman, Blaine Lake.

Several instructive addresses were given during the sessions. Mr. T. A. McInnis, of the Bureau of Publications, gave an interesting talk, and Hon. J. F. Eryant spoke on the subject of Saskatchewan's Resources. The members of the association were the guests of the Saskatchewan Government at a banquet on Thursday evening, Oct. 2. Following the banquet an informal dance, sponsored by the Toronto Type Foundry Co., was greatly enjoyed. At noon on Friday, Oct. 3, the members were tendered a luncheon by the Saskatchewan Wheat Pool, and on Friday evening the Weekly Newspaper Association banquet was held at which the newly-elected president presided. It was decided to hold the 1931 convention at Regina.

Good Recipes

Smoothness Of Texture In Recipes

That Call For Milk and Sugar

Do you ever have difficulty in getting a smoothness of texture in recipes that call for milk and sugar? Good recipes obtain wonderful flavor and consistency through the use of Eagle Brand Sweetened Condensed Milk. The milk and sugar are thoroughly combined (almost pre-cooked you might say) so that results are obtainable that could not be expected if you mixed the sugar and milk yourself. Having the milk and sugar already blended is a great advantage. Aside from saving sugar and the trouble of mixing—there is the flavor of a finer flavor to the dish. The condensed milk combines quickly and easily with all other ingredients—binds them closer together—and gives the recipe a smoother texture. Another advantage of condensed milk is its convenience. One can keep several cans on hand as it keeps perfectly so there is no such thing as running short, but rather a certainty of pure, fresh milk whenever it is required.

Saskatchewan Wheat Pool

Nomination papers for the annual election of Saskatchewan Wheat Pool delegates are being mailed out from the Head Office at Regina. Nominations will be accepted up to 6 p.m. on Tuesday, November 4. As soon as possible after the closing of nominations, ballots will be mailed out to all Wheat Pool contract-signers in the sub-districts where two or more candidates have been nominated. The closing date of the election has been set for Tuesday, December 2.

Marvelous Yield Of Oats

Alert to the possibilities of "Marvelous" oats, William White, farmer of the Alert district, southeast of Blaine, Sask., has reaped a marvelous yield. From an experiment plot of four and a third acres, he threshed 121 bushels to the acre. The oats weighed 42 pounds to the bushel. The land was new breaking on an old pasture field. Neighbors threshed the grain, measured the plot and verified the yield.

Canada has lost in seven years, through insect pests, almost as much as she spent on war demobilization from 1915 to 1928.

A Huge Undertaking

Building Of Sydney Bridge In Australia

The central arch of Sydney Bridge in Australia has been closed and it is expected that 18 months will elapse before the bridge is open for traffic. Construction by the British firm of Dorman, Long & Co., it is the largest arch bridge in the world. The contract price was \$4,217,721, but the total cost will probably exceed \$6,000,000. There were provisions throwing on the New South Wales Government the extra cost due to rises in wages, which have been large.

In planning the bridge it had to be considered that more than half the total traffic of Sydney, the chief port in Australia, had to pass under it. The bridge had to give headroom and clearance to big ocean liners. The central arch is a single span of 1,850 feet, and there is a clear headroom of 170 feet at low water. The top of the arch is 440 feet above the water, exactly the same height as the highest point on Hampstead Heath, and 75 feet higher than St. Paul's Cathedral. With its approach the bridge is 3,770 feet long. The total width of the deck of the bridge is 160 feet. It carries four lines of electric railway, in addition to a 57-foot roadway and two footways. There are 37,000 tons of steel in the arch construction and 13,000 tons in the approaches or a total of 50,000.

Daily Air Service

A daily air service between Lethbridge, Calgary and Edmonton, Alberta, a distance of 320 miles, has recently been inaugurated. This new service connects with the air mail service from Calgary to Winnipeg.

Large steel manufacturers in Canada are operating nearly at capacity.

SUNDAY SCHOOL LESSON

OCTOBER 19

SIMEON AND ANNA — THE INSIGHT OF THE PURE IN HEART

Golden Text: "Blessed are the pure in heart; for they shall see God." — Matthew 5:8. Lesson: Luke 2:22-39. Devotional Reading: Psalm 34:1-7.

Explanations and Comments

Nunc Dimittis, 2:26-32. At the time of the birth of Jesus there was living in Jerusalem a righteous and devout (the Greek word means literally "God-fearing") man named Simeon, who was looking for the coming of "the consolation of Israel," for the promised Messiah. "It is striking to observe how the description of Simeon's character expresses the aim of the whole Old Testament revelation. All that was meant by the preceding long series of manifestations through all those years was accomplished in the man. For heaven how he is described—'just and devout,' that is the perfection of moral character, stated in the terms of the Old Testament; 'waiting for the consolation of Israel,' that is the ideal attitude which the whole of the gradual revelation of God's increasing purpose running through the ages was intended to make the attitude of every true Israelite—an expectant, eager look forwards, and in the present, the discharge of all duties to God and man. 'And the Holy Ghost was upon him,' that, too, in a measure, was the ultimate aim of the whole revelation. So this man stands as a bright, consummate flower which had at last forced its way through the roots, and in his own person, an embodiment of the very results which God had patiently sought through millenniums of providential dealing and inspiration!" — Alexander McLaren.

The Holy Spirit had revealed to Simeon that before he died he should see the Lord's Anointed. "Some inward thought through millenniums of providential dealing and inspiration!" — Alexander McLaren.

Simeon took the Babe in his arms and blessed God and spoke the beautiful words which have received the name of "Nunc Dimittis, the first two words of the sentence in Latin. Simeon's Words To Mary, verses 33-35 of Simeon's blessed Joseph and Mary (Joseph fulfilled here the part of a father), who stood there, marveling, and to Mary he said, "Behold this Child is set for the falling and the rising of many in whom peace will reject Him; 'fall,' while some will accept Him and 'rise' to a high spiritual life."

Why tell us of Simeon?—that's the common-sense way to reduce—but don't take them with the idea that they possess reducing qualities in themselves. This is what they do—they clean out the impurities in your blood by keeping the bowels, kidneys and liver in splendid working shape, and fill you with vigor and tireless energy.

As a result, instead of phantoms haunting you in an easy chair every free moment and letting fatty fat accumulate, you feel an urge for activity that keeps you moving around doing the things you've always wanted to do and needed to do to keep you in good condition.

Kruschen Salts are the up-to-date Fountain of Youth. Take one-half teaspoon in a glass of hot water to-morrow morning and every morning—be careful of the foods you eat—take regular moderate exercise—then watch the pounds slide off.

Catering To Visitors

Winnipeg, England, Bess Sunday Give Sports To House Seers.

To boost its scenery and also give city employees a holiday, Windermere, England, has decided that all municipal tennis courts, putting greens and golf courses be closed on Sunday. Those in favor of sports on Sunday afternoons said that records showed that the clergymen and residents of Windermere used to watch football being played after church on Sunday, but the city council decided that visitors should go to Windermere for scenery and solitude.

What's in a name? Ask the editor who spelled the bride's wrong.

WHY FAT MEN STAY FAT

"The trouble with me, and I guess this applies to 99 out of every 100 men who are putting on weight, I didn't have the energy or 'pep' to keep it off. Lost all interest in my healthy activity and just lazed around accumulating the odd pounds, until I got that 'Kruschen feeling.'"

Start taking Kruschen Salts—that's the common-sense way to reduce—but don't take them with the idea that they possess reducing qualities in themselves. This is what they do—they clean out the impurities in your blood by keeping the bowels, kidneys and liver in splendid working shape, and fill you with vigor and tireless energy.

As a result, instead of phantoms haunting you in an easy chair every free moment and letting fatty fat accumulate, you feel an urge for activity that keeps you moving around doing the things you've always wanted to do and needed to do to keep you in good condition.

CHAPTER II.—Continued.

"Do you know," he broke in, "I'm almost famished, Nick." (He turned a surprised face to him.) "Don't say it. I know it's only eleven-thirty. I know it's not time to eat; and I don't care. Thunders! Gay, I've lived all my life by rules. I hate 'em. From now on, unless you make a nice famished house-cat of me, we'll eat when we're hungry; that is," he added, grinning, "if we can arrange to be hungry at the same time!"

"Otherwise," smiled Gay, her fears vanishing before his carefree grin, "I infer that we'll eat when you're hungry."

Nick laughed, but refused to answer this awkward question. Instead he said, stopping the car: "Here's a brook and a pine tree, so near that we can easily keep an eye upon the silver, though no self-respecting tramp would consider stealing it. Say, you don't mind eating early, do you?"

The girl laughed at this tardy return to manners.

"What am I to do now when I shall eat, if my lord and master—"

"Gosh!" Nick interrupted fervently. He raised awed eyes to heaven. "She calls me her lord and master! But" (with a sudden dropping to earth), "you can cut out that line of talk, Gay. It's medieval. Call me 'the boss,' if you must; but not your lord and master. I'm at home in jumpers, but I'd look a fool with an ostrich feather in my cap."

"I'm not so sure of that," Gay contradicted, regarding his clear-cut profile critically. "One of those three-cornered hats, you know, with a plume riding on your shoulder."

"Glory!" gasped Nick, staring at her. "Have you lost your mind, Gay?"

"Do Not Hesitate to Try It"

"Your Vegetable Compound is a good medicine. Anyone who is in poor health should not hesitate to try it. When I was taking the Vegetable Compound I tried the sample Liver Pills I found in the package. I have taken them every night since and I can feel myself improving. I am so thankful for the good they do me that I have told several women about it."—Mrs. G. W. Pollitt, 263 Hinton St., Stratford, Ontario.

Lydia E. Pinkham's
Vegetable Compound

W. N. U. 1930

His eyes were raised to the window below which hung the sign. Then, before she could speak, he was out of the car, giving a little brush to his clothes as if in a desire to appear well on this occasion.

"I'll just run up and see if this is right, though I believe the town clerk usually perches near a Justice in these Gracia Greens. I never got a marriage license before, Gay, and it may take time. If I'm longer than you expect, don't worry. I shan't go back on you my dear girl, you look solemn as a funeral. Over my head—the worst is yet to come!"

He turned away, then hesitating at the dingy doorway, came back to say: "Of course you know, Gay, that I was only trying to brace you up? There isn't going to be any 'worst' about it, either for you or me."

It seemed to Gay, waiting nervously outside, that he was a long time gone; yet when she saw him coming, she felt, with womanly inconsistency, a sense of peace. The street was almost deserted of passers-by, but he came near and spoke softly.

"I've got the license, and the Justice is waiting for us, I—"

"Nick," broke in the girl suddenly, "couldn't we go to—"

He laid a comforting hand on hers. "I'm afraid not, dear. There's been a lot of publicity lately about under-age couples getting married here. You look about fifteen, Gay, and I'm no Methuselah! The parsons have been forced to shut down on these hasty weddings—that is, they won't do it without some sort of investigation. And we haven't time for that, though I hate like thunder to ask you to come up here."

"Is it an awful place?"

Nick smiled.

"I haven't seen it. The town clerk offered to act as witness and tell the Justice we were here. Come, dear. We must keep him waiting."

Gay stepped onto the sidewalk, glancing down with apprehension at her dusty shoes.

"Do I look a sight?"

"You look all right to me, Gay, and that's all that matters." Then, with a look that they knew not of, he added: "You look great! I bet that town clerk will expire of envy!"

So it was with a laugh that they started up those dingy stairs that were to lead them they knew not where. The echo of that laughter was on their lips when Nick opened the door bearing the name of Josiah K. Miller; but it died at their first glimpse of the town clerk. It was thought Gay, with a sense of anticipation so much worse than she expected. The dust of the stairs and hallway seemed to penetrate the very atmosphere. Josiah K. Miller, his beard stained profusely by tobacco, stood in a chair behind a roll-top desk. The town clerk, a dapper little man wearing a red necktie, stood by the window, whistling, with strange cheer, the *Miserere* from *Il Trovatore*. Before a typewriter sat a rosy, gum-chewing girl, who yawned with a look at Gay's approach. It was thought Gay, with a sense of anticipation so much worse than she expected.

He hummed lightly a bar or two from *Lohengrin*.

Gay's hand went to her throat, as if to stifle the revolt that choked her. She couldn't be married here. She threw an appealing glance to Nick, but he was speaking to the town clerk, man behind the desk. Loathing the whole scene she lowered her eyes, only to behold a tin spittoon as evidently in need of attention as was Josiah K. Miller's beard. It was terrible!

Then something staided her. She glanced up to meet the benign gaze of Abraham Lincoln, looking down from a steel engraving above a dirty marble mantel. She thought (and laughed of herself later), "If Lincoln can stand it, I guess I can!" Then she felt Nick's hand upon her arm, and the Justice, slouching to his feet, began to speak.

(To Be Continued.)

Denmark In the Lead
While the so-called world powers are trying to make up their minds what to do about naval reduction Denmark has decided to scrap one of her two remaining cruisers and sell the other probably to China. This would come under the heading of practicing what the other fellow preaches.

All true cacti are natives of America.

WHEN CHILDREN FRET

THERE are times when a child is too fretful or feverish to be sung to sleep. There are some pains a mother cannot put away. But there's quick comfort in Castoria!

For diarrhea, and other infantile ills, give this pure vegetable preparation. Whenever colic, longues tell of constipation; whenever there's any sign of sluggishness, Castoria has a good taste; children love to take it. Buy the genuine—with Charles H. Fletcher's signature on wrapper.

Fletcher's CASTORIA

Health Service By Air

Interest Taken In Possibilities Of Development In Peace River District

Possibilities of developing a regular health service for the Peace River country similar to that in use in rural parts of Australia, were viewed with interest by Dr. W. W. Chipman, professor emeritus of obstetrics and gynecology at McGill University, who returned from the north recently.

Interviewed, he said: "The medical people, I believe, are keeping pace with the demand as far as is practicable. I would like to see more nurses in the country. Motor transportation and the aeroplane have revolutionized medical conditions and sick people now can be brought to the hospitals. There are excellent hospitals in the country."

Asked if he thought an aeroplane service, carrying patients, and sending to outlying points such as is in operation in Australia, would be practicable in the Peace River country, Dr. Chipman said he thought it had interesting possibilities and might be employed to advantage.

"It was not in any settlers' homes, but the people looked healthy and vigorous and were extremely optimistic even with the price of wheat lower than it has been for 16 years and hitting them extremely hard. I was impressed by that."

When Men Were Men

Felt Performed In Pioneer Days Hardly Possible Now

Papers recently carried the story of an athlete who collapsed after carrying a 100-pound weight a few miles, says the *Waseca Herald*. This brings to mind a story current in Le Sueur, Minn., in the early '60s. A Irishman named Patrick Sheehan, who settled in Montgomery, accompanied a neighbor to Hastings to get flour for his family. The trip was made with the old-fashioned ox team. At Hastings one of the oxen got sick. Sheehan knew his wife and babies were out of food, so he threw a 100-pound sack of flour on his shoulder, took a package under his arm and struck out for home, making the trip of more than 60 miles in a little over 24 hours. This feat never got front page headlines in the newspapers, but we doubt if any modern athlete would attempt to equal it today.

The Oil Of Power.—It is not claimed for Dr. Thomas' Electric Oil that it will remedy every ill, but its uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and learned by experience.

Research Is Essential

In the modern world a nation cannot expect to hold its own, unless it encourages in the fullest way fundamental, up-to-date research into the arena of Nature, and unless it is alert to take immediate advantage of every practical outcrop of such research.

It took news of the Crimean War a week to get to London, England, by messenger, as modern methods of transmitting news were not known then.

No Unemployed in Iceland

Hon. W. J. Major Found People Busy and Prosperous

Economic depression may be world-wide at the present time, but it has not reached Iceland, where unemployment is practically unknown, and business firms on wings of activity. Hon. W. J. Major, K.C., attorney-general, told the Winnipeg Rotarians at a recent luncheon in the Fort Garry Hotel, Mr. Major described his visit to the island democracy of the north last summer when he represented the Manitoba government at the millennial celebration of Parliamentary government.

Reykjavik, capital city of Iceland, Mr. Major said, was much like a Canadian city of similar size, with excellent schools, business houses and public buildings. In the realm of literature, both in poetry and prose, he said Iceland had achievements of which she could be proud. Her influence for good had spread far across the earth.

Out of a population of 105,000 at the present time, not a single mentally sound adult was unable to read or write, and there were only four or five cases of unemployment at the time he visited the country.

The Major painted a pleasing word picture of Iceland, with its pleasant green fields and majestic mountains, describing how its people had won every possible advantage from its resources. He paid special tribute to the sterling qualities of its population.

KEEP THEM HAPPY BY KEEPING THEM WELL

It is natural for children to be happy, active and full of fun. When they are fretful, fussy and disinclined to play you may be sure something is wrong. Almost invariably that something lies in the digestive tract.

It is to meet the need for an absolutely safe corrective of childhood ailments that Baby's Own Tablets have been designed. They gently regulate the stomach and bowels and induce drive out constipation and indigestion: break up colds and simple ailments and all the little things that trouble Mrs. W. E. Forsyth, Dover, N.B., writes:—"I would not be without Baby's Own Tablets as I know of nothing to equal them for fretful, fussy babies who are troubled with colds or sour stomachs."

Baby's Own Tablets are sold by medicine dealers or by mail at 25¢ per box from The Canadian Medicine Co., Brockville, Ont.

An Interesting Discovery

First Illustrated Book Printed in England Was Found Recently
One of the heads of a firm of English stationers recently discovered the first illustrated book ever printed in England. It is the *Machinist Book of Hours*, and is stated to be worth \$100,000.

William De Machinist was London's first printer to use wood blocks for illustrations, and this volume was issued from his second printing press near Fleet bridge in the middle of the 15th century.

Although fragments of the Book of Hours have been found from time to time in the bindings of old books, no one ever suspected it was illustrated. The volume consists of a hundred vellum pages and has eight illustrations portraying the meeting of the Virgin and Elizabeth; the holy family at Bethlehem; the presentation at the temple; the massacre of the innocents; the shepherds; the judgment; and the crucifixion.

The find is particularly interesting, because these first line drawings may be said to be the foundation from which all picture reproductions have their origin. It is thought that the book may go to America.

Douglas' Egyptian Liniment is recommended for sore necks, galls, distemper, colic and sprains. Removes proud flesh and Hoof Rot. Stops bleeding instantly.

A Curious Coincidence

It is an interesting historical fact, that although the Duchess of York is a daughter of a Scottish peer, she has a considerable amount of English blood in her veins, as her surname—Bowers—indicates, and, curiously enough, she is herself descended from the first Duke of York there ever was—Edmund of Langley, a son of King Edward III.

Her Three Children Troubled With Diarrhoea

Mrs. Leo Lapointe, Laurier, Man., writes:—"My three youngest children were very bad with diarrhoea. I tried all kinds of remedies, until a kind old lady told me to try Dr. Fowler's Extract of Wild Strawberry. I got a bottle right away and started giving it to them, and the next day the diarrhoea had stopped altogether. Now I know what to do when any of my children are troubled that way again."

On the market for the past 65 years; put out only by The T. Millburn Co., Ltd., Toronto, Ont.

Perfect dyeing so easily done!

DIAMOND DYES contain the highest quality anilines which can be dyed. That's why they give such bright, new colors to dresses, drapes, lingerie.

The anilines in Diamond Dyes make them so easy to use. No spotting or streaking. Just clear, even colors, that hold through wear and washing.

Diamond Dyes never give things that look faded. They are just like all the dyes in the world—perfect dyeing costs no more—is so easy, why experiment with makeshift?

Little Helps For This Week

"God is our God for ever and ever; He will be our Guide, even unto death."—Psalm XLVIII, 14.

Thy way, not mine, O Lord, However dark it be, Lead me by Thine own hand, Choose out the path for me. Not mine, not mine the choice In things, or great, or small, Be thou my guide, my strength, My wisdom, and my all.

—Horatius Bonar.
We want a guide who knows us, whether we be self-willed and over-confident, or despondent and over-seeing, or worldly and aspiring. We want a guide who knows our frame and pitiless us, is not vexed with our ignorance or mistakes, but is tender towards us and patient. We want a guide who values character, and knows how to train while He guides; who guides for the purpose of training, sometimes into very hard paths, but profitable for the soul.

—Theodore Dwight Woolney.

Radium Ore Discovery

Deposits in Ontario May Yield Sufficient To Supply the British

Belief that there are deposits of radium ore near Wilberforce, in Haliburton County, Ont., capable of supplying the needs of Canada and possibly of the whole Empire, is expressed by Dr. G. E. Richards, head of the enlarged X-ray department of Toronto General Hospital. Dr. Richards is director of a company interested in the project.

He asserted that investigations over a period of three or four years had uncovered an apparently extensive deposit which averaged 186 milligrams of radium per ton of ore treated, a higher average than in the radium-bearing ore in the Belgian Congo, at present the world's chief source of supply.

Persian Balm—the delight of dainty femininity—imparts a fragrant charm to the complexion. Tones up the skin and makes it velvety soft in texture, face and a hair restorative. Wonderfully soothing and protective. Especially recommended in cases of roughness or chafing caused by weather conditions.

Remarkable Crops

Good Yields Of Grain Reported In Lloydminster Area

Some remarkable crops have been gathered in the Lloydminster area this year, running from 40 to 50 bushels to the acre in the case of wheat, and from 90 to 100 bushels in the case of oats. There has also been quite an active sale of farming machinery this year, one machinery agent stating that he had sold more threshing outfits this fall than during the past three seasons.

"Was Harold's wedding a swell affair?"
"Positively! They even used puffed rice!"

AND THEM'S OUR SENTIMENTS, TOO

The W.C.T.U. in public session recently listened to an eloquent de-
nouncement of the weekly press—that is, a section of the weekly press
of the province which insists on con-
ducting its business on a one hundred
per cent business basis without al-
lowing sentiment to enter into the
question.

One enthusiastic speaker at the W.
C.T.U. meeting urged a boycott on
all weekly newspapers which carried
liquor advertisements. When we read
this, we debated whether to immedi-
ately cancel all advertising contracts or
commit heart-kari, but after recover-
ing from the shock we decided to
face the wrath of this particular
member of the W.C.T.U. and con-
tinue selling space to the liquor inter-
ests.

There is no reason why newspaper
publishers cannot maintain a "dry"
outlook and still profit by the publi-
cation of liquor advertising. If we
were conscientiously "dry" instead of
moderately "wet" we would be only
too happy to extract all the shekles
we could lay our hands on from the
beer and liquor houses, and we most
strenuously object to any woman, or
man, for that matter, who advocates
a boycott because he or she doesn't
like the appearance of some of our
advertisements.

This enthusiastic member of a lost
cause would be well advised to delve
a little deeper into the matter before
continuing to slate the weekly news-
paper for condemnation. The W.C.T.U.
asks for free space in newspa-
pers for publicity purposes as it be-
lieves it is fighting a righteous cause.
The liquor interests are prepared to
pay for the space they use. We
should have no objection to treating
the W.C.T.U. on the same basis, but
at all times we reserve the right to
applaud or criticize the actions of any
society group or business organiza-
tion whether it pays for advertising
space or not.

We informed the press secretary of
the W.C.T.U. many months ago that
our correspondence columns are
available for any attacks on Old Man
Rum which they wish to make, but
we further informed them that the
same offer would be extended to the
Moderation League or any other
group opposed to prohibition. The
W.C.T.U. did not see fit to accept our
offer, its policy apparently being to
demand the suppression of all oppos-
ing voices.

Progress is not built on suppression
but on open and frank discussion. If,
through their arguments, the prohibi-
tionists can convince us that they
have a solution to a problem which
has been disturbing the world for the
past three thousand years, we are
quite ready to listen to the argument,
but we will also lend an ear or two
to the arguments of the opposing
forces.—Drumheller Mail.

Justice is not always done to Cana-
dians in current British trade discus-
sions. For instance, one would some-
times imagine that Canada gives no
substantial tariff advantage to British
goods entering Canada in 1928-29
to the value of \$194,020,573, and of
these no less than \$123,399,818 worth
enjoyed the low duties of the British
preferential schedule. That is to
say 64 per cent of British goods
entered on the best terms Canada
is able to offer if her own
industries are to live. Look
at the other side of the picture. Cana-
dian goods of the value of \$429,750-
485 entered Great Britain, and only
\$14,905,896, or 3 1/2 per cent, enjoyed
preferential treatment. Besides there
is a large field of British importation
into Canada where the free list ap-
plies. As we freely recognize, no
British government, as things are,
dare apply the principle of Empire
preference to the foodstuffs of which
Canada is so large an exporter.—The
Canadian Gazette.

A. Brunetto has secured the local
district agency for Calgary Brewing
Co.'s soft drinks.

SPEED, LAW, UNIFORMITY

The ever-interesting subject of
speed limitations crops up ever and
again. In England conflicting speed
measures now seem to have been
abolished with perfect success. They
have a statute covering in one neat
clause of the operation of motor ve-
hicles, which reads as follows:

"If any person drives a motor ve-
hicle on a road recklessly, or at a
speed or in a manner which is dan-
gerous to the public, having regard to
all the circumstances of the case, in-
cluding nature, conditions and use of
the road and the amount of traffic
which is actually on it at the time, or
which might reasonably be expected
on the road, he shall be liable."

This comprehensive law covers the
whole country and a motorist knows
just what he is up against at all
times. In contrast to this, Canada
might be cited, where every province,
county, city and town has its own dis-
tinctive speed law. Governments are
beginning to realize, however, that
safe speed varies with the circum-
stances of traffic and road conditions;
and that driving at 15 miles an hour
under some conditions is just as
dangerous as 50 miles an hour. Also
in the majority of places the law is
paying more attention to reckless
driving and less to ordinary speeding.

CANADIAN NATIONAL CONSTRUCTION PROGRAMME TO STIMULATE EMPLOYMENT

A new freight shed at Fort Wil-
liam to replace the structure destruc-
ted by fire a few weeks ago, track lay-
ing of 140 miles of new branch lines
on the prairie provinces and the re-
laying of more than 100 miles of the
Company's main line trackwork in
Western Canada, is provided for in
the emergency construction projects
of the Canadian National System an-
nounced at Montreal. These are the
works specially undertaken after con-
ference between Government and the
railways for the purpose of stimulat-
ing employment and business activi-
ties in the Dominion.

The Canadian National already has
extensive works under way in West-
ern Canada, which will be preceded
with. These include such projects
as the construction of the hotels at
Saskatoon and at Vancouver, B.C.,
and the construction of the new
steamship docks at Vancouver to re-
place those recently destroyed by fire.
The special programme, on the cost
of which the Dominion Government is
assuming interest charges for a limited
period, is in addition to the pro-
gramme which the company had al-
ready arranged to commence this fall
and winter, which programme has not
yet been announced, but which will,
with the special programme now
brought forward, provide for con-
struction and improvement activities
in every section of the Dominion.

It would seem the essence of nerve
for a dealer to bring Lethbridge coal
to Fernie, when so many of our min-
ers are out of work. E—H—
seems to have that required gall, but
the nerve of the dealer is nothing
compared with that of the customer
who has made his money out of the
Ferne miners and who now sends out
of the community for coal. It would
only be justice to publish a list of
these customers and we are more

Free Press.

Detroit gunmen caught in an at-
tempted hold-up in Toronto, have
been sentenced to eight years in the
penitentiary and 20 lashes. It is a
severe sentence and should be a stern
object lesson. It is a grim warning
to racketeers from across the line
that they had better stay in their
native pastures. Every law-abiding
citizen of Canada will applaud the
justice of the sentence in the Toronto
court. Canada wants none of the
gang wars and racketeering that
makes life almost unlivable for a
peaceable citizen in the greater cities
of the United States.—London Free
Press.

Local and General Items

Buildings costing \$2,732,000 will be
erected by the University of Toronto,
including separate mining and botany
buildings and an addition to the Royal
Ontario museum.

We were slightly in error last week
in mentioning that Mrs. S. Leaky
had taken over the Burns Co. store
at Coleman. Should have read Mr.
S. Leaky.

G. G. Coote, M.P., arrived home
from Ottawa last Friday night.
"Unto him who hath shall be given,"
was his summary of the special ses-
sion.—Nanton News.

The laying of a charge against a
local man of leaving a camp fire un-
quenched a matter of three months
after the offence was alleged to have
been committed, is not considered by
the public of this district to be in the
best interest of fire prevention and
the hearing of such a case should not
be heard at this late date.

Arthur J. Kelly, J.P., secretary-
treasurer of the Town of Blainmore
and of Blainmore School District 628,
has received commission as coroner,
succeeding Dr. J. Olivier, who left the
district.

Henry Ruhl, of Champion, Alberta,
aged 21, and Aubrey Robinson, of
Columbia, S.C., aged 17, were sen-
tenced to terms in the state prison
at Walla Walla for five to eight and
five to six years, respectively, for rob-
bery of the miners' and merchants'
bank at Chelan, Washington. Both
entered pleas of guilty. In trying to
escape the police, Ruhl was shot and
the bullet was later removed from his
body.

For the convenience of miners,
branches of the various banks in
Drumheller will open for business be-
tween 6 and 7:30 o'clock on the fol-
lowing dates, which are pay-days:
October 25, November 8 and 22, De-
cember 6 and 20, January 10 and 24,
and February 7 and 21. It has been
pointed out that during the busy sea-
son this arrangement will be of great
convenience to miners, enabling them
to cash their pay cheques and make
their deposits after they leave work.

Geoffrey Knowles, son of Mr. Al-
bert Knowles, of Coleman, sustained
a painful injury last week end. He
was sawing logs with a circular saw
and in turning round to pick up a
log, raised his foot, which was caught
by the swiftly revolving machine, al-
most severing his heel. "Jeff" is a
survivor of the automobile fatality at
Lundbreck Falls in May, 1929, when
the car he and others were in plun-
gered over the cliff into the river, when
his sister Gady and Tony Nicholas lost
their lives.

Statements contained in the daily
press last week regarding the acci-
dent in which Mr. J. W. Gresham, of
Blainmore, was injured, were some-
what misleading and incorrect. The
car was owned and operated by De-
tective Joseph Farrell, of Lethbridge,
with Mr. and Mrs. Gresham as pas-
sengers returning from Calgary. Mr.
Farrell and Mrs. Gresham escaped
practically uninjured, while Mr.
Gresham carries a plaster covering a
scar across his nose. The car was not
seriously damaged, while the other
car, which was declared to be
blame, suffered seriously, the radiator,
etc., being bent back over the engine.

A few days ago we heard of a
couple of Blainmore Scotsmen who
had recently visited Lethbridge. They
had entered a store as made pur-
chases to the extent of 49 cents, leav-
ing a fifty-cent piece on the counter.
Emerging, one of the pair happened
to notice a scales standing by the
entrance and searching his pocket
found he had not a cent to deposit
therein. He suddenly thought and
asked his chum if he had received
his change from the fifth. He had
not, so rushing to the counter obtain-
ed the one-cent piece. This was de-
posited in the slot of the scales. Bob
was weighed, then George and then
Sandy—and all the scales people re-
ceived for the effort was the one cent.

Attitudes Of Mind

It is reported in a daily newspaper that some doubt existing as to which side of the international boundary line between Canada and Maine a certain old lady's farm was located, surveyors were employed and the decision finally reached that it was on the United States side. "I'm so glad!" exclaimed the old lady, "Canadian winters are so severe."

Travelling from the United States to Canada on one occasion, the writer overheard a passenger remark just after the train had entered Canada: "The air is so much sweeter and purer now that we are back in Canada."

Climate to these people was an attitude of mind, but, nevertheless, very real. It leads one, however, to wonder whether many people do not approach many of their daily activities, not on a basis of actualities, but from some purely mental reaction.

On the day following the general election of July 28 last, a merchant in one of our Saskatchewan cities, a strong Conservative by the way, declared that his business had already greatly improved. He overlooked the fact that two fairly large conventions then in session in the city might have added somewhat to his day's sales. No, it was an attitude of mind with him—business had improved over night because the Conservatives had won the election.

It is the same with many in respect to hard times. Some people whose salaries, or wages, or other sources of income, are the same now as they were in the boom days, or even greater, but whose cost of living is much less, due to lower commodity prices, "feel" harder up than many who actually suffer, they become terribly pessimistic and continually harp on the blue ruin aspect of things and how difficult they are finding it to make ends meet.

Without in the least discounting actual conditions, it is safe to say that with many people hard times is an attitude of mind, superinduced, maybe, by fear of the real thing, rather than the thing itself. Unfortunately there are many who are faced with truly hard times and have concrete problems to solve and difficulties to overcome, but there is a multitude of others who are no worse off today than they ever were but who "think" they are. They are largely responsible for cultivating, and disseminating ideas that conditions are much worse than is actually the case.

The influence of mind over matter is a well authenticated and recognized fact. Records in doctors' offices contain scores and hundreds of cases of people who, having nothing the matter with them, imagined there was something wrong and by constantly and morbidly dwelling on their imagined ills actually did become chronic invalids.

There is, too, that state of mind wherein people develop suspicions of others without any cause or evidence to support such suspicions, but, having become suspicious of another, every word and act of such person, however simple and innocent, only serves to confirm and intensify the suspicions of the former.

Such attitudes of mind are to be deplored, and their cultivation to be guarded against by every individual. The harm done through constant thinking of unpleasant and evil things, and the harboring of thoughts of suspicion of others, or even of weaknesses in one's self, is almost incalculable. It spreads like a malaria through society polluting the life of whole communities.

Fortunately, the reverse of this is also true. The cultivation of clean, kindly and noble thoughts, the development of feelings of confidence in and goodwill towards one's neighbors, creation of the habit of looking at the bright rather than the dark side of things, also spreads through society and uplifts and brightens the lives of all persons with whom such a sane and happy individual comes in contact.

Jamaica Buys From Canada

Is Grateful For Tariff Preference On Fruits and Vegetables

Canada is getting all kinds of business that formerly went to the United States because of Jamaica's gratitude to Canada for recent tariff preferences, according to L. T. Kennedy, prominent business man of Kingston, Jamaica, who was a recent visitor to Montreal.

"We in Jamaica are very grateful to Canada for her preference in fruits and vegetables, and as a result, millions of dollars worth of business which formerly went to the United States is now being diverted to Canada. We buy a great deal of flour from you, among other things," he said.

New Building For C.N. Exhibition

Another permanent building is to be erected for the Canadian National Exhibition, Toronto, at a cost of \$1,000,000. The buildings already erected in exhibition park are valued at over \$20,000,000. The new building will be used for exhibiting horses and cattle.

"Mrs. Smith," said the minister, "does your husband confide his business trouble to you?"

"Yes, indeed he does," said Mrs. Smith—"every blessed time I buy anything."

A woman may be clever enough to do any work a man can do but the cleverest gets some man to do it for her.

Wealthy For a Day

Girl Student From Copenhagen Enjoyed Herself In Berlin

Miss Malten Barring, a student of medicine from Copenhagen, Denmark, experienced being a millionaire for a day in Berlin. She had won first prize in a contest sponsored by the Danish daily, "Folkebladet," which meant that she was permitted to spend one day in Berlin with all bills, no matter how high, paid by the paper.

There was one condition, however. Miss Barring was not allowed to acquire anything which might be of value to her after her role of millionaire expired.

She therefore found the task of spending money somewhat difficult. A visit to Prof. Albert Einstein, an airplane spin, a drive about town in a costly limousine, sumptuous meals at the most expensive Berlin restaurants and attendance at a theatre comprised her day's "extravagance."

Pale People Are In Peril

Some Form Of Nervous Breakdown Always Threatens Them

Pale people are almost always nervous. Pale skin denotes lack of blood and too little blood usually results in faded nerves, sleeplessness, headaches or neurasthenia. Dr. Williams' Pink Pills are different from most other medicines—it is impossible to take them and not feel better. Their whole mission is to make rich, red blood. This new blood strengthens the nerves and gives vitality to the whole body. Concerning them Mrs. G. Cook, Floor Street, Toronto, says: "Two years ago I got Dr. Williams' Pink Pills for a nervous breakdown with the result that I have been well and strong ever since." You can get these Pills from any dealer in medicine or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Canada Playing Valuable Part

Vancouver Expert Will Lay Rails For Bermuda's First Railway

Canada will play a valuable part in the construction of Bermuda's first railway, which is hoped will be completed within a year or so. Louis McDonald, of Vancouver, expert in road beds and track laying, has gone to Bermuda aboard the C.N. steamer "Lady Somers," after engaging him in Montreal to follow him later to Bermuda. The Vancouver expert has been 35 years in the business of rail laying. He served under General J. W. Stewart in the 12th Royal Winnipeg Troops during the world war and is now working with Belfour, Beatty and Co., London, England, builders of the new railroad.

If Miller's Worm Powders needed the support of testimonials they could be got from mothers who know the great virtue of this excellent medicine. But the powders will speak for themselves and in such a way that there can be no question of them. They act speedily and thoroughly, and the child to whom they are administered will show improvement from the first dose.

Permits Are Cancelled

Foot and Mouth Disease Burs Imports From Britain

Owing to the existence of foot and mouth disease in England an order has been issued from the Department of Agriculture at Ottawa under the Animal Contagious Diseases Act cancelling all permits for the importation of ruminants and swine from Great Britain to Canada. This action has been made necessary as foot and mouth disease has been confirmed near Leeds in England. The order reads in part:—"Owing to the presence of foot and mouth disease in England all permits for the importation into Canada of cattle, sheep, goats, other ruminants, and swine from Great Britain are cancelled, with the exception of those covering shipments which are at this date actually embarked on vessels en route to Canada." The order was dated September 8, 1930.

As a verminous effective preparation is Mother Grove's Worm Terminator, and it can be given to the most delicate child without fear of injury to the constitution.

Newest In Machines

To learn what and how much you should eat simply drop a coin in new slot machine, which was shown at the International Hygiene exhibition at Dresden, Germany. The machine weighs you, measures your height and then delivers a card outlining your diet, showing the nature of the food and the number of calories you should consume daily.

Americans spend approximately \$1,000,000 a day for ice cream.

Minard's Liniment has a hundred uses.

DON'T SUFFER WITH DANGEROUS INDIGESTION

Do you suffer after meals with a belching, from sour and acid stomach? Many believe they have heart trouble and tremble with fear, expecting any minute to drop dead. This condition can be prevented, likewise relieved. Take Carter's Little Liver Pills after meals and neutralize the gases. Sweeten the sour and acid stomach, relieve the gas and encourage digestion. The stomach, liver and bowels will be cleansed of poison, painful and dangerous indigestion disappears and the system enjoys a tonic effect. Don't delay. Ask your druggist for a 25c box of Carter's Little Liver Pills.

An Interesting Discovery

Iron Foundry In Northern Rhodesia Thousands Of Years Old

Extraordinary new light will be thrown on the history of metallurgy by the discovery of an enormous iron foundry 3,000 or 4,000 years old, at Mumbwa, Northern Rhodesia. Three different races appear to have used this foundry. The last race was an intelligent people, who knew how to choose stones, mix them in the right proportion with bone and quartz, place them in curiously-constructed moulds, in which they would subject them to terrific heat, pour in molten lead from the furnace, and so fashion wonderful cutting and piercing implements.

Recipes For This Week

(By Betty Barclay)

GREEN TOMATO AND ONION PICKLE

- 1/2 pk. green tomatoes.
- 1 qt. sliced onions.
- 1 tablespoon black pepper.
- 2 tablespoons white alspice.
- 1 tablespoon dry mustard.
- 2 tablespoons mustard seed.
- 1/2 cup sugar.
- 4 cups vinegar.

Slice the green tomatoes. Put a layer in the kettle, then a layer of sliced onions, and so on. Sprinkle with salt. Then add another layer of green tomatoes, and so on. Let stand overnight. The next morning drain off the liquid, put into preserving kettle with all the other ingredients, and simmer gently 30 minutes. Fill glass jars and when cold put in cool, dry place.

PENNSYLVANIA CHILI SAUCE

- 24 medium-sized ripe tomatoes.
- 1 large onion, sliced.
- 3 green peppers.
- 3 red peppers.
- 1 cup sugar.
- 4 tablespoons salt.
- 1 cup chili vinegar.
- 1 tablespoon nutmeg.
- 1 tablespoon ground cinnamon.
- 1 teaspoon ground cloves.
- 1 teaspoon allspice.

Put tomatoes in small pieces. Grind onions and peppers through food grinder. Mix all ingredients and boil over moderate heat until sauce attains the desired consistency. Then jar immediately.

Women and Asthma. Women are numbered among the sufferers from asthma by the countless thousands. In every climate they will be helpless in the grip of this relentless disease unless they have availed themselves of the proper remedy. Dr. J. D. Kellogg's Asthma Remedy has brought new hope and life to many such testimonials, sent entirely without solicitation, show the enormous benefit it has wrought among women everywhere.

Parachute For Plane

A parachute for an aeroplane, designed by Dr. J. T. Parr, a dentist of Oakland, California, is released by pressing a control lever. This opens a trap-door to the upper wing and the parachute is shot out. The chute swings the plane and pilot slowly to earth, and has a landing speed of about 15 miles an hour.

His Nightly Message

This often repeated nightly message which his chauffeur delivered to Sir J. Bickertatfe was on the latter's funeral wreath: "The dre's dying out; the water is nice and hot; the windows and doors are bolted; the motor traps are set and there are no mice. Good-night, Sir John."

Against Grippe

Having a bottle of Minard's handy at the right time will often save a doctor's fee. For colds, sore throat, bronchitis.

Meet Hardships In North

Man and Wife Blazing Trail Had To Live On Moose Meat

A three-months' silence since a daring couple plunged into the trackless wilderness of Northern British Columbia, bound for Alaska on foot, has been broken by word from William Albee to his parents at Glendale, California, telling of the successful adventure of the young man and his wife.

A short letter, scribbled on a sheet of ledger paper and borne in a brown, weather-beaten envelope, delivered to the home of Mr. and Mrs. E. P. Albee, recounted a valiant struggle against a series of hardships. The letter was mailed September 17, from Telegraph Creek, British Columbia.

Leaving Port George, British Columbia, in the middle of June, Albee, 24 years old, and his wife, 22, cut a path toward Liard Post, far to the north.

Albee carried an 82-pound pack, his wife a 52-pound pack, and a dog was loaded with 30 pounds. They hoped to make Liard Post in four weeks. "Instead," Albee wrote, "it took nine weeks." Five weeks out of Port George, their provisions gave out. "We lived the remainder of the journey on moose meat—three times a day," he added.

Albee said what maps they had apparently were in error for they never found any landmarks. They will spend the winter in Dawson.

The young man's parents said the couple probably will cross Alaska next summer and they might plan to continue across Bering Strait to Siberia and around the world.

Minard's Liniment For Chest Congestion

Recent photographs of the planets add evidence to the belief that Mars, Jupiter, and Venus have an atmosphere, as the earth has.

Piano keys are being made in Italy of zoolite, a casain plastic.

QUALITY

Made of pure materials in modern sunt facilities. No expense spared to have it clean, wholesome and full flavored.

WRIGLEYS

is wrapped and sealed to keep it as good as when it leaves the factory. WRIGLEY'S is bound to be the best that men and machines and money can make.

A Gesture Of Friendship

McGill University To Receive Foundation From United States

A gesture indicative of the friendship of the United States toward Canada will soon be made at Montreal, when a marble fountain designed by Gertrude V. Whitney, will be presented to McGill University by an United States committee of goodwill to Canada.

Dr. John H. Finley, of the New York Times, and a member of the United States committee, will make the presentation address, and His Excellency Lord Willingdon, Governor-General, will, in turn, present the fountain to the university through its chancellor, E. W. Beatty, its principal and vice-chancellor, Sir Arthur Currie.

A London bookseller has collected more than 400 editions of "Robinson Crusoe" in all languages.

HIGHER DUTIES ON WINDOW GLASS ARE REVOKED

Ottawa, Ont.—Increased duties on window glass, approved at the last session of parliament, have been revoked. This action constitutes the first definite step of this kind by the government to protect the consumer against enhanced prices of commodities, the duties on which were increased. The action according to an official statement issued by Sir George Perley, acting prime minister, follows complaints that the price of ordinary window glass to the consumer has been doubled since the duty was imposed.

By the government, it is stated, resulted in the conclusion that no active steps have been taken to produce glass in Canada by those having factories here.

Duties on window glass now return to what they were before the special session of parliament, namely 7½ per cent. under the British preference, 12½ per cent. under the intermediate and the same under the general tariff. The schedule approved at the last session divided the commodity into classes and fixed specific rates which were a great deal higher than those which had been effective.

Strenuous debate followed the introduction of the new glass schedule into the House of Commons. Premier Bennett read to the House a letter from the Canadian Libbey-Owens Sheet Glass Company, Ltd., in which the company undertakes to take immediate steps to bring its factories into operation, if the increased duties were granted. There was to be no increased price, a number of undertakings from manufacturers declared.

Prime Minister Bennett said if the prices were increased duties would come down. The government had the power to reduce the duties whenever it felt that the undertaking had not been lived up to.

Under the tariff approved at the special session of parliament specific rates on window glass became effective. They were as follows:

Common and colorless glass: (A) in sheets not exceeding 80 square inches in area, per pound, British preferential tariff 1½ cents, intermediate tariff 1½ cents, general tariff 2½ cents; (B) in sheets not exceeding 80 square inches in area, per pound, British preferential tariff 2½ cents, intermediate tariff 3 cents, general tariff 3 cents; (C) in sheets exceeding 80 square inches in area, per pound, British preferential tariff 3½ cents, intermediate 4½ cents, general 4½ cents.

Favors Submarine Venture

Stefansson, Thinks Wilkins Expedition Will Succeed

New York.—Vilhjalmur Stefansson, Arctic explorer, arrived at the liner "Maquatic" with the statement that the submarine is safer and more practical than the aeroplane as a means of reaching the North Pole.

Mr. Stefansson, who has been lecturing for three months at Cambridge University, expressed the belief that Sir George Hubert Wilkins, his first aide on the Arctic expedition of 1913-1916, will successfully negotiate his under-water venture to the polar cap.

The explorer corrected a popular belief that the Arctic sea are filled with deep-reaching icebergs and said there were none within 400 miles of the pole.

"The human race has centred its activities on the northern part of the globe," he said, "and will continue its growth and population in that area. In this development there must be assurance of food and supply, and it is Wilkins demonstrates that a submarine may successfully negotiate the polar cap, then frozen Canada, around Hudson Bay, Russia and Siberia, become new fields for man's exploitation."

Favor Meat Inspection

Regina, Sask.—A vote in favor of the establishment of a system of meat inspection in the city was registered by members of the city council sub-committee on meat inspection, which met representatives of surrounding municipalities, and live stock and butchers associations at a meeting in the city hall council chambers.

Assassins Sentenced

Lahore, India.—Three of those accused of complicity in the assassination of the assistant superintendent of police in Lahore in 1928, were sentenced to death by a special tribunal. Seven others will be transported for life.

W. N. U. 1859

Work On Bay Line Satisfactory

No Foundation For Criticism Says Minister Of Railways

The Pas, Man.—Returning here from his first trip to Churchill, a journey made at this time partly because of charges that the export project was not proceeding as speedily as it might be, Hon. R. J. Manion, Minister of Railways and Canals, declared that criticism is unfounded and that the undertaking is going ahead in an extremely efficient manner.

The minister said that it is the government's intention to open the route in September, 1931, for tests in both export and import shipments. Unforeseen circumstances may change present plans, but it is hoped that the late government's plan to open the route in a commercial way next autumn will be carried out.

He stated he was especially pleased with the excellent roadbed to Churchill, and he also paid tribute to George Kidd, superintendent at Churchill, and his staff for their efficient handling of the entire scheme. To his mind, an immense amount of work has been accomplished, reflecting great credit on both the department of the interior and the C.N.R.

Authorities Must Work Together

Co-Operation Is Only Way To Solve Transportation Problems

Kelowna, B.C.—S. L. Squires, of Toronto, chairman of the Canadian Good Roads Association, in addressing the annual convention of the Good Roads League of British Columbia, here, said that it was essential for federal, provincial and municipal authorities to work together to solve transportation problems. He outlined how good roads were changing the national and even political life of Canada.

"Good roads," he said, "are bringing about a better national understanding and are having a greater effect on the business life of Canada than any one realizes. Distance is now measured by time and not miles, East and West are becoming better known to each other by means of fast autos and improved roads."

Mr. Squires strongly opposed use of communitizing roads in competition with the railways, secured additional business through improved highways.

Preference For Canadian Goods

Canadian Chambers Of Commerce Suggest That Farmers Diversify Operations

Toronto, Ont.—If the Canadian consumer will give preference to Canada-produced commodities, and if the farmer will diversify his operations sufficiently to produce articles for which a good Canadian market is available, then there will be a marked improvement in the nation of the grower's return.

This is the conclusion reached by the agricultural committee of the Canadian Chambers of Commerce, and placed before the convention of that body here.

Majority Of Women Voters

Women Voters Greatly Outnumber Men In England And Wales

London, England.—Women have indeed secured the vast majority. The registrar-general has announced there are now 362,000 more female voters than men in England and Wales.

The city of London proper is the only metropolitan district containing more men than women electors. In South Kensington the women outnumbered the men by more than two to one.

Curiously enough, women voters are relatively fewest in the working class areas.

Welland Canal Damaged

St. Catharines, Ont.—Downbound traffic through the Welland Ship Canal had to be diverted to the lake which was still being used for upbound traffic, as the result of extensive damage to two valves at Lock 7, at Thorold. Excessive air pressure on the valves is blamed for the accident, which will cause considerable delay to traffic through the canal.

Returns From North

Winnipeg, Man.—R. G. O. Johnston, reputed to be Canada's farthest north drill operator, is returning to Winnipeg from working on a claim 300 miles north of Churchill, Man., on Hudson Bay. He was a member of the party held up for two weeks by equinoctial gales while coming down by boat from the claims.

MORE SUPPORT FOR AVIATION IN CANADA IS URGED

Toronto, Ont.—"Governments should refrain from carrying out aerial work which rightly belongs to commercial aviation—notably aerial survey," said Gen. J. J. MacBrien, president of the Aviation League of Canada, in speaking before the Canadian Chambers of Commerce here.

"Experimental, development, exploration duties and advanced training provide plenty of work for the government machines," he said.

Among other suggestions made by General MacBrien for the assistance of commercial aviation were:

Progressive government policies, Dominion and provincial, needed so that commercial operators and manufacturers may plan accordingly.

Organized airways, which include up-to-date airports. The airways system of truck and branch lines should be energetically developed.

Substantial support should be given to Canadian aircraft manufacturers as it is most important the industry should be firmly established. Small companies should be encouraged to amalgamate and branch transport lines should be entrusted to them. Commercial schools should be supported by an allowance for certificates issued.

Aeronautical education and research should be established. Any educational institution not providing facilities within its scope for its students to gain a knowledge of aviation will be considered behind the times and unprogressive.

General MacBrien outlined the present regular airplane routes in the Dominion, and predicted that within two years the present jump from Ottawa to Winnipeg would be bridged by air mail.

Aids To Beauty Costly

Statistics Show \$250,000,000 Yearly Spent In United States

Washington, D.C.—Two thousand tons of rouge, 4,000 tons of face powder, 6,000 tons of bath salts, 25,000 tons of vanishing, nourishing and other facial creams, 9,000 tons of complexion soap, 28,000 tons of skin lotion and more than 50,000 tons of cold cream assist the people of the United States in, annually maintaining that schoolgirl and schoolboy complexion. These aids to beauty cost \$250,000,000 a year. The "Beauty" business in the United States is worth \$3,000,000,000 annually and ranks among the first ten, according to C. C. Concanon, of the Department of Commerce.

Threat Of Power Shortage

Winnipeg, Man.—Low water level in the Winnipeg River carries the threat of a power shortage for Manitoba, it was revealed recently by the Winnipeg Electric Company. Customers of Winnipeg Electric, the Suburban Rapid Transit Company and the Winnipeg, Selkirk and Lake Winnipeg Railway, were advised by the companies to discontinue the use of electric water heaters for the winter.

Plans Canada's Finest Terminal

Sir Henry Thornton, Chairman and President of the Canadian National Railway, inspects the model of the \$50,000,000 terminal which his company has started to build at Montreal. The building to which the railway president is pointing is the proposed central passenger station and office building in the heart of the theatre and business district of Canada's metropolis. The plans provide for electrification of all passenger lines entering the terminal and make adequate provision for long distance and rapid transit traffic as well as for development of freight facilities which Montreal will need during the coming years.

WILL VISIT CANADA

Dr. E. Leslie Burgin, M.P., one of Britain's outstanding authorities on international legal problems, who has been attending the international law conference in New York, and who is to visit Canada.

Lay Heavier Steel

One Hundred Men Put To Work On C.N.R. Line Between Melville and Watrous

Saskatoon, Sask.—One hundred men have started work on the Canadian National line between Melville and Watrous. A stretch of 28 miles, commencing five miles east of Melville, will be torn up and the 85-pound rails replaced by 100-pound rails. This work is part of the 140-mile program recently announced by the Canadian National Railways.

A. M. MacGillivray, district engineer, C.N.R., stated that the reason for the change was on account of heavy traffic over the line and the large type of engine now used by the company. Laying the new track will not interfere in any way with traffic, according to Mr. MacGillivray.

Air Minister Made

Will Before Flight

Lord Thomson Requested Everything To His Brother

London, England.—On the eve of the departure of the R-101 on the dirigible's tragic voyage toward India, Lord Thomson, Minister of Air, prepared a will bequeathing all of his possessions to his brother, Col. Roger Gordon Thomson.

The document, witnessed by two officials of the air ministry, reads: "I am setting out on a flight for India and in case anything happens to me I leave all of my property and possessions to my brother, Col. Roger Gordon Thomson." Lord Thomson ordered that he be locked in a safe, and that it should be destroyed should he return.

Mapping The Moon

Mt. Wilson, Cal.—Mapping the moon by a new type of astronomical survey has been begun at Mt. Wilson Observatory. An adaptation of aeroplane map making photography gives views equivalent to swinging the astronomical cameras a few thousand miles out into space to get more directly above side areas of the moon's face, something impossible from earth.

Japan Seeks Increased Trade With Canada

Japanese Minister Makes Plan In Address At Toronto

Toronto, Ont.—A strong plea for increased trade between Japan and Canada was made by His Excellency Hon. I. M. Tokugawa, Japanese Minister to Canada, in an address before the Canadian Chamber of Commerce here. The organization were guests of the Ontario Government at dinner.

"The Japanese people realize that if Canada thinks her rising industries need protection, 'it must and will be done,' the minister said, after outlining the growth of trade between Canada and the Orient since 1913. "They realize that every country has a right to regulate its own economic policy. They do not and cannot seek any modification of such policy of any foreign country. They merely desire to discover if there are any articles produced in Japan which have not come so far, but have the possibility of finding their way into Canada in future, or those which may possibly come to Canada in larger quantities than in the past."

STUDY QUESTIONS OF INTEREST TO THE DOMINIONS

London, England.—In a room of the House of Lords, the committee headed by Lord Sankey, the Lord Chancellor, opened consideration of two constitutional questions of wide significance to the dominions.

The first is the establishment of the Empire Tribunal of appeal which was mentioned in last year's report of the committee on operating of Dominion laws. The second problem is that of the nationality of the British subjects domiciled in the dominions. Linked with the second is the further question of whether a married woman, upon her marriage to an alien, is to be enabled to retain her nationality.

Official communiques on the committee's progress only give the trend of the discussion in barest outline, although it is officially intimated that on neither point has anything approaching a definite decision yet been reached.

Hon. Maurice Dupre, Canadian ambassador in London, represents Canada on the Sankey committee, took the view, it is understood, that the Empire Tribunal should be constituted from panels representing Britain, India, as well as, as occasion arises, rather than having a permanent body. In the event of a dispute between two units of the British commonwealth, the court should be representative of each party to the dispute, with a neutral president, chosen either from Britain or from one of the other dominions in the opinion of Mr. Dupre.

In accordance with its unreserved acceptance of the optional clause of the court of international justice, the Irish Free State wishes to reserve the right to appeal to the Hague if it so desires. Britain and the Dominions, except the Irish Free State, signed the optional clause with the reservation that appeal to the Hague would not be made in case of disputes between members of the British commonwealth.

Discussions on the subject of nationality revealed a cleavage of opinion. The point at issue is one which received preliminary consideration by the heads of delegates at their meeting at Downing Street, namely, whether there shall be one common British nationality for the whole commonwealth or seven separate nationalities, those of the United Kingdom, Canada, Australia, New Zealand, South Africa, the Irish Free State and India, South Africa and the Irish are pressing for a straight nomenclature. The British—and they are said to be receiving the wholehearted support of New Zealand—are pressing for the recognition of one British nationality only for the whole commonwealth.

Hon. Maurice Dupre, it is understood, favors a compromise which would retain the wider British nationality while linking it with the nationality of a particular dominion. To a Canadian travelling abroad it is felt the arrangement would be of special advantage. He would not only possess his Canadian citizenship but would retain the wider British nationality which would give him the protection of the British consular services. The greatest difficulty in this plan would lie, perhaps, in the choice of a convenient term. The title of "British-Canadian" has been suggested, but there has, as yet, been no formal proposal along this line. The present indications are that Australia is likely to support the Canadian position.

MILLING TESTS REVEAL WHEAT OF HIGH GRADE

Winnipeg.—Milling, baking and protein tests conducted by the cereal laboratory of the Canadian Wheat Pool indicate that the top grades of the new wheat crop are of excellent quality, according to a report released recently. Analysis of more than 1,700 samples from all western crop districts are included in the tests.

The survey covers a comparative study by grades of the inspection standards, output standards, averages of inspections at various inspection points, and average of terminal unload samples.

Of the total quantity of wheat inspected to date, 16.5 per cent. graded No. 1 hard; 46.5 per cent. No. 1 Northern; 25.2 per cent. No. 2 Northern; 4.1 per cent. No. 3 Northern; 1.3 per cent. Nos. 4, 5 and 6; 0.5 per cent. Nos. 4, 5 and 6 special; 8.1 per cent. Durums; 2.0 per cent. no grade due to excessive moisture; 3.7 per cent. others. The comparable figures for last year were: 3.3 per cent. No. 1 hard; 39.3 per cent. No. 1 Northern; 33.6 per cent. No. 2 Northern; 7 per cent. No. 3 Northern; 3.0 per cent. Nos. 4, 5 and 6; 8.1 per cent. Durums; 2.0 per cent. no grade due to excessive moisture; 3.7 per cent. others.

The average protein content of the wheat crop of Western Canada based on analysis made to date is slightly lower than last year, the report says. The average of some 1,700 samples collected from all parts of the west is 12.9 per cent. This is approximately one-half per cent. below the protein of the 1929 crop. The average percentage protein of the samples from the three provinces was Manitoba, 13.0; Saskatchewan, 13.4; and Alberta, 13.2.

The weight per bushel of the crop is below normal, being under that of last year's crop. Samples from Manitoba and southern Saskatchewan are particularly low in test weight while the average at Saskatoon and Calgary show more normal weights per bushel. According to the report, all samples mill well, producing flour of good color.

Appointed To Directorate

Hon. Chas. A. Dunning Becomes Identified With Insurance Company

Winnipeg.—An announcement was made here from the head office of the Ontario Equitable Life and Accident Insurance Company, by S. C. Tweed, M.L.A., president, that Hon. Charles A. Dunning, former minister of finance, had been elected a director and vice-president of the company. Mr. Dunning will be actively associated in the work of the company.

Ottawa, Ont.—The entrance of Hon. Charles A. Dunning into the life insurance business has no bearing on whether or not he decides to return to the House of Commons. The new activities he has embarked upon would not interfere with his duties as a member of parliament. The former minister of finance made this clear, adding that he was glad to have this opportunity to become associated with a life insurance business and familiarize himself with this very important phase of Canadian financial life.

Schooling Still Being Opposed By Doukhobors

Few Radicals Are Making Trouble In British Columbia

Victoria, B.C.—While internal disorders have been reported in interior Doukhobor communities, the problem of the Doukhobor school attendance has been virtually solved, except for a few radicals, according to Hon. Joshua Hinchcliffe, Minister of Education.

These reports show that the community Doukhobors have adopted Canadian education so enthusiastically since the opening of the full term that their schools are full and in some cases must be enlarged.

About 40 children of radicals altogether are absent from their classes. This is a small proportion of the school population, but it is sufficient to create a problem.

It is understood the Department of Education plans action to force all these children to be educated.

Direct Parcel Service

Ottawa, Ont.—A postal treaty providing for a direct exchange of parcels post between Canada and Cuba has been signed and will come into force at an early date, it is announced by Hon. Arthur Prentiss, postmaster-general. Hitherto, parcels have had to be routed through England or France.

POLISH CATHOLIC CHURCH
OF CANADA OPENS HERE

Rt. Rev. Joseph I. Foltynski, head of the Polish Catholic church in Canada, for the present will conduct services in the Blairmore Anglican church at the following hours:

Sunday, October 19, at 11 a.m.—High Mass and sermon in Polish language. At 2 to 3:30 p.m., Sunday school for the children, and at 4 p.m., Vespers and sermon.

The first congregation of the Polish Catholic Church in North America was organized in Chicago thirty-five years ago by Rt. Rev. A. Koslowski, bishop of the old Roman Catholic church. The first synod was held on February 7th and 8th, 1920, at Detroit, Mich., at which the bishop elected was Rt. Rev. Joseph I. Foltynski, who at that time was rector in Peel, Wash., following the example of the first Christian church on the principle of vox populi, vox Dei. The bishop's consecration was performed for him by Rt. Rev. Stanislaus B. Mikiewicz, bishop of the old Roman Catholic church in Westville, Ill. After that, this church was incorporated in the city of Olympia, Wash., on June the 21st, 1921, as a diocese of the Polish Catholic Church under the jurisdiction of the Rt. Rev. Joseph I. Foltynski, and on November the 22nd, 1929, was incorporated in Toronto,

Ontario, under the name of the Polish Catholic Church of Canada.

The church is independent of papal authority and has the succession of those old Catholics who refused to assent to the dogma of the infallibility of the Pope decreed by the Vatican council of 1870.—Cont.

FAREWELLS HERDMAN McLEOD

A Farewell Dance was given in the Community Hall on Tuesday evening, Sept. 30th, by the employees of the McLeod River Collieries, to Mr. and Mrs. Herdman McLeod. As a mark of esteem previous to their departure to Coleman, for the very active part they have taken in the social welfare of the community during their stay in Mercoal, Mr. Wm. Allan presented a gent's gold watch to Mr. McLeod and a lady's hand bag to Mrs. McLeod, on behalf of the workers. Herdman's Melody Boys orchestra supplied the music while the ladies served refreshments during the interval. The dance was a great success and well attended. All Mercoal folk turned out to bid farewell to our retiring manager. Mr. and Mrs. McLeod and family left on Wednesday for Coleman.—Mercoal Note in Edison-Jasper Signal.

When it comes to sharing a secret, a woman is the soul of generosity.

Local and General Items

Don't forget the Tes and Pantry Sale in the United church on Saturday, November 1st.

Mr. Arthur Hadwell sustained slight injuries at the local mine a few days ago.

The ladies of the W. I. will hold a dance in the Landbreck hall tomorrow night.

FOR SALE—Eight-room house and two lots, formerly occupied by Mrs. A. McLeod. Apply to M. H. Congdon.

Jollett Houbregs is a visitor with his parents and friends here, before entering upon his winter's term in pro-hockey.

EYES EXAMINED at the Blairmore Pharmacy on Tuesday, October 21st. E. J. ANDERSON, D. Sc., attending.

Upwards of thirty members and adherents of the Coleman United church attended the district conference at Lethbridge yesterday.

Hundreds of geese were seen making their way south in the storm on Tuesday evening. Many ducks were also in flight southbound.

Quite a number of Scotch folk from Coleman, Bellevue and Passburg, were in town Tuesday night to attend the "Nicht wi' John H. Garden in Bonnie Scotland."

Mr. and Mrs. Harry Griesbach are spending a few days in Calgary. To avoid being robbed, Harry carried a safety deposit box with him, kindly loaned by a Canadian bank.

As we go to press, we regret to learn that Mr. McMurphy, of the C. P.R. depot staff, has received word of the sudden death of his mother, which occurred last night at Macleod.

Rev. Dr. Edmund H. Oliver, principal of St. Andrew's College, Saskatoon, has been elected moderator of the United Church in Canada, succeeding the late Dr. Gunn.

The fishing prizes donated by the Blairmore Pharmacy were won by the following: C. Madden, Landbreck, largest speckled trout, dressed 2 pounds 12 ounces—split bamboo fishing rod, value \$20.00; J. McAndrew, Blairmore, largest bull trout, 5 pounds 4 ounces dressed—pikskin fly-book, value \$10.00.

Mrs. Joe H. Boesley, Bellevue, is giving a short course in English—10 lessons—during the month of November. Mrs. Boesley was formerly a school teacher and nurse, taking a postgraduate course in the latter and later taking special high school courses at Columbia University, New York, and Dalhousie University, Halifax.

Christian Ernst, of Calgary, was sentenced to three months in jail, with hard labor by Magistrate W. S. Davidson in city police court Monday, on each of two charges of supplying intoxicants to Indians. On October 1st he supplied wine to Jack Waters, and on October 11, supplied Anthony Dodging Horse, both Saree Indians, with the same intoxicant.

The lecture on Scotland, delivered at the United church Tuesday night by Rev. J. H. Garden, B.A., proved very interesting and was much enjoyed. Added to the programme were songs by Miss Audrey Martin, of Hillcrest, and readings by Mrs. Holmes, of Coleman. The chair was occupied by Rev. Mr. Larke, of St. Paul's United church, Coleman.

Mr. W. H. Chappell, senior, late of Bellevue, is staying at the home of his son-in-law and daughter, Mr. and Mrs. A. Hicks, 106th St., Edmonton, having been there since leaving Bellevue on August the 1st, spending two days enroute with his son Fred at Wetaakiwin. Mr. Chappell would be pleased to see any of his old acquaintances when they visit Edmonton.

Wonder if Solomon ever tried trading in a forty-year-old wife for two twenties.

Marriage to most girls is like a telephone. They get a ring and then wake up.

Mr. and Mrs. W. Antel were in from the North Fork Gap over the week end.

A lot of folks would be better off if their brains worked half as fast as their tongues.

A Halifax church bell has been handed over for use as a fire bell. Still giving warning against flames.

Action for \$25,000 damages has been instituted against a Toronto dentist, charging that he pulled eleven teeth too many.

Miss R. A. Crowe, who spent the summer months with relatives at Cowley, Alberta, has returned to her home at Bass River, Nova Scotia.

Grace Steed, aged 18, a teacher of the Woolford school, was accidentally shot at her home at Taylorville on Sunday last, dying a few hours later. An Irishman was accused of cowardice. "Well," he said, "it's better to be a coward for twelve minutes than a dead man all your life!"

Alex. McKay will be interested to know that he died at Scotsburn, Nova Scotia, on October 8th, and that his remains were laid to rest on Friday last.

The officials and members of the Crows' Nest Pass Coal Co. office staffs subscribed a fund totalling \$500 toward the relief of dependants of those killed in the recent disaster at the Blakeburn coal mine.

The annual general meeting of the Alberta Amateur Hockey Association will be held in the Macdonald hotel at Edmonton on Monday, November the 10th. All affiliated clubs in the province are requested to send representatives to this meeting.

Roddy McDonald, well known boxer, has been committed for trial in a higher court on the charge of assault occasioning grievous bodily harm to one Steve Pepper. The charge arose out of a fracas, which occurred in Drumheller.

George F. Moses, prominent Fernie citizen and cashier of the Crows' Nest Pass Coal Company, dropped dead of heart failure at his home on Monday morning, at the age of 56 years. The remains were laid to rest at Fernie yesterday.

A. E. Hartley, of Medicine Hat, grand chancellor of the Alberta Grand Lodge, Knights of Pythias, will visit Livingstone Lodge here on Friday night of next week. All members and visiting brethren are urged to attend the meeting.

Mr. Val Rinaldi, proprietor of the T-Bone and Blue Goose ranches, has returned to town after the most successful farming season in his career, and hopes to take up his hibernatorial residence here for the winter. Val has marketed most of his produce, but still has a few bottles of gopher oil and beet-gopher-cauliflower pickles, all of which make real table delicacies.

ANNUAL BAZAAR. Hillcrest United Church Ladies' Aid. November 8th.

HALLOWEEN DANCE. Auspices of L.O.O.F. Lodge, Moose Hall, October 31st.

THE C.W.L. ANNUAL BAZAAR, Opera House, Nov. 15th. Dancing 9 to 12. Watch for this annual event.

BELLEVUE C.W.L. BAZAAR will be held on November the 8th. Keep the date open.

THE PYTHIAN SISTERS will hold their ANNUAL BAZAAR in the Lodge Hall on November 22nd.
